PROTECTION OF YOUR PRIVACY IS A PRIORITY AT GETAROUND

We are fully aware of the importance of your privacy and we implement data protection rules seriously. Our main goal is to assure you a smooth and safe online experience while using our Service, as defined in Getaround Terms and Conditions of Use, as we are convinced that our success is based on transparency and trust with our users.

We would, therefore, like to take this opportunity to give you a complete overview about our practices for the processing and protection of your Personal Data, as defined below.

As you are a user of our Service we want you to know how we collect, store and process your Personal Data. We have created this Privacy Policy for you to receive all the information you need. We invite you to carefully read all the information we provide and if there are any questions remaining, please do not hesitate to contact us at any time.

You can also send all inquiries regarding your Personal Data and how we use it directly to: privacy@drivy.com. We will promptly reply to you.

GETAROUND SERVICE

The service is provided by Getaround SAS, 35 rue Greneta, 75002, Paris/France, registered with the commercial register of Paris under 522 816 651 (“Getaround” or “we/us/our”).

Getaround provides an online platform intended to facilitate contact (hereinafter referred to as, the “Service” or “Services”) between, firstly, the individuals or legal entities who would like to rent out a car without a driver (“Owner”) and, secondly, the individuals who would like to rent a car for a short period of time as the main driver (“Renter”) (Owner and Renter hereinafter each and collectively also referred to as “User” or “you/your”). These Services are accessible via the Internet website through the following URLs fr.getaround.com, de.getaround.com, es.getaround.com, at.getaround.com, be.getaround.com, fr.be.getaround.com or uk.getaround.com (the “Website”) and/or as a mobile application entitled ‘Getaround’ (the “App”).

Each User may also use the services of Getaround Connect technology and his/her Personal Data will be used as set forth below (“Getaround Connect technology”).

The Services are described extensively in the Getaround Terms and Conditions.

Getaround is responsible for the processing of your Personal Data that is collected through your use of our Service and Website. This means that Getaround is notably in charge of their collection, their safety and their use for the purposes that Getaround details in its privacy policy in compliance with the data protection rules. At the time of registration as a User, you consent to such processing and you warrant the accuracy of all data provided by you.
DATA COLLECTED AND THEIR FINALITY

What is Personal Data?

This is the first question you may ask.

To put it simply "Personal Data" covers any information relating to an identified or identifiable natural person, such as your name, your address, your telephone number or your email address.

Personal data can also cover information allowing to identify you, directly or indirectly, in particular by reference to an identification number like an IP address.

What data does Getaround use?

Getaround collects and uses different sets of data to provide you with its Service and/or improve your experience on its Website. This data can be personal or not.

Some of this data may be collected via cookies. Getaround uses different categories of cookies, some of which are anonymised. You can freely manage cookies using personal data.

Server-Log-Files & browsing data

When you use our Website or App, we collect and store information in the log files of our servers and in a Data Warehouse. This includes:
- A unique identifier stored in your cookies.
- How you used the service, such as your search queries.
- Your IP address.
- Device-related event data that you use, such as crashes, your browser type and language, date and time of the request, and referring URL.

App Data

Additionally, Getaround collects and stores the following data when you are using our App ("App Data"):

User-ID, Android device ID or iOS IDFA, IP-address, country code, language, device name, name of the operating system and version.

Getaround uses these App Data only for statistical evaluation for the purpose of operating, security and optimising the Services. Getaround hereby reserves the right to save and use this App Data afterwards if particular indications become apparent to us, for instance, users using a rented car(s) and/or our service for illegal use.
Sign-Up Data

To provide you with our Service, Getaround needs to collect basic information about you.

When signing up for the Service and creating a user account, you submit the following information about your own Personal Data (“Sign-Up Data”):

Name and surname, email address, password, profile picture (optional).

If the user registers using his/her Facebook or Google account: public profile, email address and friends list.

Getaround will collect, process and use the Sign-Up Data for the purpose of providing the Service to each User.

Owner Data

If you want to rent out your car to other users you submit, in addition to the Sign-Up Data (or if applicable the Renter Data) the following information (“Owner Data”):

Car type and brand, details about the car (such as number of seats and doors), country and year of first registration, number plate, date of the last technical inspection, address of the parking location, telephone number, postal address, date of birth.

Getaround will collect, process and use the Owner Data for the purpose of providing the Service to each User as Owner.

Renter Data

If you want to rent a User’s car, you shall submit, in addition to the Sign-Up Data (or if applicable the Owner Data), the following information (“Renter Data”):

Number of driver’s licence, first issue date, country of issue, date and place of birth, postal address, country of residence, telephone number, identity documents and driving licences for rentals using the Getaround Connect technology.

Getaround will collect, process and use the Renter Data for the purpose of providing the Service to each User as Renter.

We inform the Owners who take and keeps a picture of the Renter’s personal documents (for example, the driving licence) for a Rental that they remain subject to the provisions of Article 226-22 of the Penal Code. It prohibits the disclosure of personal data to third parties who are not qualified to receive them. Criminal sanctions may apply.
These pictures are collected by the Owner at the request of Getaround, in accordance with the ToS, in order to verify the identity of the Renter for the purposes of insurance or when the tenant is not solvent.

Getaround undertakes to request these photographs only in the cases mentioned above. The professional Owner is required to delete the pictures within a 15 day period after the end of the rental.

Getaround and the Professional Owner are both co-responsible for the processing of personal data in the event that the Professional Owner takes picture of the Renter's personal documents of a Rental.

The person concerned by this processing of personal data may exercise the rights attached to his personal data with the Professional Owner and Getaround.

**Payment Data**

Additionally to your Sign-Up, Owner and/or Renter Data, you shall provide the following payment data for the purpose of making the car reservation and for the purpose of receiving payments for the Service:

*If owner: full name, date of birth, address, bank account details (account owner, IBAN or sort & account number), Getaround account password.*

*If Owner registered as a company: basic information (company name, type, company number, address) as well as information about any individuals who ultimately own or control that business.*

*This may include a scan of proof of identity.*

*If Renter: first and last name of the cardholder, details of the payment card.*

Getaround, through the services of the payment providers Stripe, PayPal or GoCardLess, will collect, process and use the Payment Data for the purpose of providing the Service and payment services to each User, being specified that part of the credit card number will be hidden during its display on screen. The Payment data will be processed and stored by our payment provider according to the highest safety measures applicable in the e-commerce sector. Notably, the transaction will be made through a secured and encrypted process.

**Public Data**

For the purpose of the use of the Service, Getaround will display some of your Personal Data that you decide to make public on the Website and/or App (“Public Data”):

*first name, surname, profile picture (optional), number of rentals and evaluation(s) by other users (if applicable), Biography (optional), Twitter link (optional), Linkedin link (optional).*
Getaround will collect, process and use the Public Data for the purpose of providing the Service to each User and connecting the users to each other by displaying this data on the Website and/or App.

**Getaround Connect Data**

Telematics boxes that Owners accept to be installed in their car(s) only collect and transmit the User’s data that is necessary for the provision of Getaround Connect technology to Getaround.

From the time the telematics box is activated in the respective car, until the telematic box is uninstalled, Getaround will collect information related to the status of the car for the operational needs of the Service (available, blocked, used by a Renter) (“**Status Car**”).

For the purpose of a car rental, Getaround will use and provide access to the Renter to the GPS/geolocation data of the car that will be collected within the framework of Getaround Open (“**Driver Data**”) 1 hour before the start of the rental to locate the car.

When a car is not being used by a Renter, or in case of non restitution of the vehicle, the car’s Owner can access the GPS/geolocation data of his/her own car.

**Dashcam Data**

Some of the Vehicles listed on the Getaround platform may be operating with a dash camera facing the front and rear of the Vehicle (in the second case, the camera will be filming the inside of the car) (the “**Dashcam**”). Vehicles equipped with a Dashcam are identified as such in the description of the Vehicle in the Renter’s search on the Website and the App prior to completion of the reservation. A reminder of the presence of the Dashcam will be made in the concerned Vehicle thanks to the presence of a sticker clearly visible in the Vehicle.

The purpose of the Dashcam is to protect Renters from being liable for any undue third party claim. It is an event-triggered safety device: video recording only takes place when an incident (hard acceleration/braking/cornering, collision or distraction) occurs. The Dashcam can also be triggered by the Renter by pressing the ‘Mark Button’ on the Dashcam to record what they believe to be an unsafe event (details specified in Article 10 of the Getaround Terms and Conditions). The Dashcam records 30 seconds before and after the event or the trigger of the ‘Mark Button’.

Whatever is recorded, the Renter and passenger’s faces will always be blurred.

Records are only kept in the event of an incident and for a period of 30 days and are sent directly to our insurance providers.

For more information, visit [co.uk/help/camera](http://co.uk/help/camera)
How we use and moderate your messages?

Getaround may read the messages exchanged through the Website or the App between members for fraud prevention purposes, to improve the Service, for user support purposes or verification that users respect our Terms and Conditions. For example, to avoid a member bypassing our online booking system, Getaround automatically monitors and analyses the messages exchanged on our platform to ensure they do not contain any reference to or words linked to another method of booking.

As often as possible, we use automated systems to moderate the messages sent between members via the Website or the App.

We never read any communication between members of our community for promotional or advertising targeting and commit not to do so in the future.

How long is your Personal Data stored?

We only keep your personal data for the period necessary for the performance of our Services and the duration of your membership.

We archive personal information from closed accounts in accordance with rules applicable to the protection of your data only in order to comply with legal obligations, prevent fraud, collect any remaining fees that are due, resolve disputes, troubleshoot problems, assist with any investigations, enforce our terms and conditions, and take other actions otherwise permitted by law.

How is our exclusion list managed?

In accordance with our Terms of Services, and in order to guarantee the reliability and security of the operations carried out via the Services offered on our Site and our Application, Getaround sets up an exclusion list of Users in the case of proven and verified fraud by our teams.

If you register and you are on this list, the user's profile is blocked and the User is no longer allowed to use the Services offered by Getaround.

The following information shall be entered on the exclusion list: name, first name of the User concerned, number and date of expiry of the credit card used for the fraudulent transaction.

Getaround keeps the personal data of the Users concerned by this fraudulent activity for probationary purposes.

The exclusion list includes the reasons for registration and is regularly updated. User profiles are deleted from the list of regularisation of the incident that gave rise to the registration.

Getaround Privacy Policy
Does Getaround share your data with third parties?

We do not sell personal data to third parties.

We may transfer personal data to our contractual service providers. Before doing so, we take steps to ensure that your personal data is treated with adequate protection as required by data protection laws and Getaround's internal policies.

We share Personal Data to carry out services and actions by order and for Getaround, for example, to let the software runs on the platform of remote servers, carry out and settle up payment processes for offered products or services, carry out technical checks to validate the condition of vehicles on the Website, confirm that the Renter Data is accurate or outsource certain Customer Relation and Claim Management actions.

In addition, Getaround is seeking guarantees from its service providers acting as data processors under the GDPR on their compliance with the rules set out in the GDPR.

Getaround shall be entitled to process and use the User’s log data that is automatically collected (Server Log-files) for the purpose of identifying, delimiting and removing malfunctions and errors in the telecommunication systems. If the requirements are met, Getaround may use log data that is necessary to uncover any unlawful use of the telecommunication systems and services. In accordance with prevailing legal provisions, Getaround may be required to provide information to criminal prosecution authorities and courts for prosecution purposes. In such situation, Getaround may not inform you about the disclosure of your Personal Data to authorised third parties.

YOUR RIGHTS

As a user, you may exercise the following rights attached to your personal data:

- Permission to access
- Right of rectification
- Right to obliteration (right to oblivion)
- Right to limitation of treatment
- Right to data portability
- Right of opposition

To exercise any of these rights, you can email privacy@drivy.com. We will respond as soon as possible.

You also have the possibility to file a complaint with the CNIL “Commission Nationale Informatique et Libertés” (English: National Commission on Informatics and Liberty).
SECURITY

What data security measures do we implement?

We employ efficient technical and organisational measures in order to safeguard the Service and other systems against loss, destruction, access, changes or the distribution of your data by unauthorised persons according to current the state of art. The data transfer between the Service and the Server is [SSL] encrypted.

The access to your Getaround account is only possible after entering your personal password directly or through autologin processes or through Facebook Connect. You should always treat your access information confidentially and close the browser window, once you have ended your communication with us, particularly if you share the use of the computer and/or device with others.

Getaround will store your data on servers, which are located in North America and managed by Amazon Web Services, Inc., (« Amazon »), which participates in the EU-US Privacy Shield framework regarding the collection, use, and retention of personal information from European Union member countries and has also signed the standard contractual clauses approved by the EU commission for the transfer of personal data outside EU.

Can we change the Privacy Policy?

Getaround reserves the right to change this Privacy Policy at any time, taking into account currently applicable data protection provisions. You will be notified once you log-on to our Service through the Website and/or App if there are any changes. You will have the right to object by writing to privacy@drivy.com according to the provisions as set forth in the terms of use.
